

UPCOMING PUBLIC MEETING

The Northern Virginia Regional Commission Seeks Feedback on the Loudoun County Potomac Heritage National Scenic Trail (PHNST) Feasibility Study

NVRC, in partnership with the National Park Service (NPS) and Loudoun County, is seeking public feedback on the initial results from a feasibility study. An analysis has been conducted to investigate the most feasible route options for completing the network gap in the PHNST in the county. The project intends to identify, assess, and present the feasibility of potential routes in the PHNST corridor westward from the Town of Leesburg.

Feedback during this public meeting will help the consulting firm and project managers finalize results from the study.

Meeting Details

When?

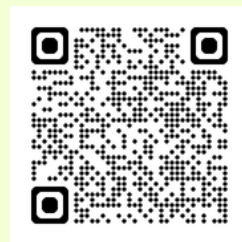

Tuesday, October 29th from 6:00 PM - 8:00 PM.

Who is Invited to Attend?

The general public, including community members, businesses, and other interested parties.
